Now, you have the option to save the static rolls you have, roll again (provided you have copies of the charming scroll you are using), or cancel the roll completely. Basically, they will serve as the replacement deception for your equipment. Each of the different pieces of equipment requires a specific rune! Rune de Armas (Red) à e á,~ - For weapon weapon (blue): for Helmsarmor Rune (Green): For Armorsaccessory Rune (Purple): For accessories as well as with class progress materials, Equipment update materials are cultivated. At that time Rift. Do not waste your coupons "in the team, summons a great non-no! Unless it is a whale that has tons of money to spend, keep away from the quotation of equipment. The same happens with the effect [4 Pcs.]. We will have to put the sea in the entire Lewin team to activate it. S. Actually, this is much more easy to wait to cause a fixed amount of dawa (0.5x of the ATK) to a unit when starting combat. Instead of cultivating for these sets, the game gave us the power to create ours. However, the NS and RS are a good alternative in case you are lacking Crafter hammers. Therefore, we will go to the strengthening of equipment and updates of stars If you wish, you can use different sets and compilations for them to have options when the need arises. This time we are going to focus on the game team system, another of those that improve your hosts. Let's move on to stars updates. First, let's talk about those static bonds. Therefore, we recommend looking for a guild and actively participate in in activities. It is also better to have a dedicated group with which you can communicate during battles since LV.40 and superior to dragons are not their usual walk in the park. Hey, what are you doing man? The additional equipment can also be used as strengthening material, although they grant significantly less exp: n teams (brown): it grants 15 expr (silver) teams: it grants 45 Exprs equipment (gold): it grants 150 ExpSSR equipment (Rainbow): It grants 450 Exp we do not see the waste point of SR and SSR equipment (obviously) just like the gears feed. The same goes for the SSR team, although they provide Orichalcum minerals. In any case, at least when an SSR team is exchanging, it is good to know that all hope is not lost. Content, I think you now know who is our favorite host! We will discard how to access the team part and how to equip the team, since it is explained by yourself. Not to mention that it does not cost resistance to participate in Guild Wars. To activate these bonds and effects, you must equip different gears imbued with the same enchantments. Again, we recommend that you buy these as last resource. This is also a good source of minerals if you are looking to obtain more lovely rolls or martial spirs and have tons of sr equipment. To activate that effect, we will have to put the sea in one of the other three remaining equipment (helmet, armor, accessory) or equip one that already has it. The black market will also sell scrolls, of rarity variable, which can cost up to 300k per piece (for rare enchantments). It will notice that the venser scrolls have [2 pcs.] And [4pcs.] Inscribed in them, with a corresponding bonus or effect. These packages include 5 copies of the charming you choose. Block a team will eliminate them as an option in alchemy, that essentially prevents you from accidentally transmuting them. Let's do it then! Update: We edit the article include new content of recent updates. Just drive this particular equipment when it is not in use. These spirit are available in the tab of the store equipment, the rare martial spirit (for equipment sr) cost 200 mitril ore (obtained from the goddess test), while the martial spirsty 300 ORICHALCUM ears (obtained from the goddess test). The texts of the bonuses will also be highlighted once it has 2 and 4 active pieces. After that, all the runes of the group of levels in particular will be accessible in the guild store. These enchantment scrolls add two things: static bonds and established effects. Formation of the team and update of stars is the hammer time! Like the hosts, the gears also have levels, which are improved using Crafter hammers (their own version of the exp). Yes, you read it well, we are the ones who create the team sets. Instead, the game gave us a selection of enchantment scrolls to imbue our team. You can also replace the existing bonuses in your team. You can also quickly access the stages of time cracks offered by these materials simply by touching them. As always, we will explain the basic concepts and then provide some advice and tricks. Each dragon also has a specific set of equipment drops: fire dragon weapons: weapons, helmets and armor drags "Armorsthunder" Dragon Dragon "Dragon of Helmsdark" and that is about this for

our team guide. Why can't we extract these? One more thing, as you have seen in the video above, the MR MITRIL MINERAL MINER team when they are transmuted. Hey there are dice rollers and buttons mashers. Although this is a limited one, you can only buy a total of 10 Special delighted (Cuesta 200 mitril per package) and 5 rare packages (200 Orichalcum) per week. However, what does not return are the materials used for enchant stars and scrolls. The best place for the farm farm is to fight the dragons and the If you really need a new team, the best place to grow them is challenging the dragons of the secret kingdom. Do not worry, do not force you to replace the bonuses saved in a team, simply cancel the new enchantments playing the boton The scrolls are generally acquired in the trial of the goddess, in the store or in certain joint battles. Starting in LV. 40 Thesis The bad boys have the opportunity to drop SSR equipment. A browser error was determined. Add Ctrl+F5 to update the page and try again. A browser error was found. Intentrated it again by maintaining the printed change boton and clicking on "update". We are here once to take a look at another central characteristic of Langrisser Mobile. You can verify our other articles on Langrisser Mobile here: class advance guide in the dependency guide, since before, the game has a characteristic of alchemy where the equipment for gold transmutes. Since you can transfer the strengthening carpets to that new bright rainbow. Although we only recommend that you do this if you do not have another priority by hand (class progress, ride of termination time, etc.) since resistance costs are quite high, even in the cooperative. Dou notary fearful of strengthening team n, r or m. So be careful when pumping on a team. Well, that's the same in Langisser Mobile, except for a small data. Thesis skills and bonuses may vary from direct addition of a percentage to a particular statistic to the introduction of several new effects. Different teams "for Hã © roles, we really love our RS! They are not required to use only a particular set of equipment for their host the sorrow. Particularly, the guild store. Although, you may want to transmute those those Gold, how will you learn that expenses in this game increase exponentially (it is accessed to transmutation through the bag's eyebrow, then touching the alchemy boton in the lower right part). Sometimes they can also fall during the tests of the goddess or be given during the events. Enchants are not permanent, can freely overwrite any charm that has already imbued in a team. Like the Exp pots, we have the basic, special, rare and chest of Crafter, which provide various amounts of Exp: Basic hammer of Crafter (brown): grants 30 exposition hammers (silver) of hammer (Silver) À ¢ ¤ - Grant 120 Expare Crafter's Hammer (Gold) - grants 480 Crafter Hammer (Rainbow): 2000 expesions are generally obtained from the goddess essays, maps events, the market of whites and black and in the friendship store (50 FP for a rare). Yes, it is now possible to update your team even if you have not reached that point in the time crack (Dulce!). To more strength, the team, in increases of 10, will improve the level of skill. With the update of Guild War, now you can buy runes through the Guild store (bought using contributions obtained through the participation of the participation in Guild Wars). Unless you need martial spyritus land, this is the way to follow when you want to obtain a particular charm. Rainbow for sale! They can also be purchased with Mithril and Orichalcum ore on the equipment tab. For example, our Lewin has an imbued weapon of the enchantment of the E;spéro, which adds 5% ATK and INT if it has two pieces [2 pcs.] Equipped. Reading a free preview, pages 6 to 13 are not shown in this preview. These bonuses are applied randomly every time they love a team, think about it as a prawn but by statistics. Needs The first Rift stage offered by one of the runes. The best indicator for this is that enchanted emblems shine once you have at least two two They active. This qualification dictates its maximum level: 1 star: a level of 52 stars: 103 stars level level hunting: 204 stars level hunting: 305 stars level hunting: 406 levels of 406 stars ¢ ¤ - Level cape of 50 to update the qualification of stars of a team that will need a duplicate copy of you and runes. If you have any questions or if we are wrong with information and we also lost some, homes in the section of comments below. This can also be done on the "change" equipment screen, which allows you to be widely accessible to lock gears, even those equipped by their other hosts. Equipment enchantments do you remember those sets of coveted articles of other games for which you simply spend hours cultivating? Marcial! In addition to using a duplicate copy of the equipment, it can alternately use a martial spur. Although that is not how do you do a team, since transmuting a team will return all the gold and artisan hammers that you have used to strengthen it. You may block the equipment to avoid accidentally transmitting in case you have a certain type of love for a team or simply want to protect your SSR team, so you will be happy to know that they can be blocked. The blockage can be done by playing a gear currently equipped with a host and then pressing the "lock" ácon in the upper right corner. Thus that they are as a kind of last resource. Another interesting part is that you do not need to unlock all higher level cracks to access the rare runes for sale. This is because SR and SSR teams can be cultivated freely in the goddess test and even in the daily events of the equipment map. Now we will go to some general advice and advice. Complete game! Then let's talk about established effects. Even the X10 Summon (which guarantees at least two SR teams) is a total waste of its trinity coupons. Correct, that is about all the basic knowledge you need to start strengthening, updating the stars and and It is only instead preventing the equipment from being transmuted. Now he does not get too excited about the fact that we can create sets, since we cannot make our own effects freely. Once they reach level 10, an additional skill or a bonus of statistics will be unlocked. This is the reason why we do not recommend using SR and SSR as strengthening materials. This world does not block, in any way, the team to Hã © Roe that currently uses it. As noted, the gears also have their own stellar qualification. classification.
